Projects

Portfolio Website, *Developed a personalized portfolio website utilizing React.js with a distinctive typewriter effect for style, serving as a captivating showcase of my frontend web development portfolio. This innovative design feature not only enhances visual appeal but also underscores my commitment to dynamic and engaging user experiences* 🔗

NFT Website (Front-End), *The NFT Website Front-End, built with React.js and Bootstrap, delivers a seamless browsing experience for exploring NFTs. With its responsive design and dynamic content, users can easily navigate collections and engage with artwork. This project highlights my expertise in creating visually appealing and user-friendly web solutions.* 🔗

Movie Hub, *A dynamic React.js website powered by Bootstrap and the Movie API by Rapid API. Seamlessly browse upcoming, trending, and popular movies with dynamic routing and robust API handling for a smooth user experience. Demonstrating proficiency in React.js, Bootstrap styling, and API integration, MovieHub underscores my dedication to creating dynamic and engaging web applications.* 🔗
